

OBJECTION SSD 10421 SGS Weigall

I live at 29 Lawson St backing onto the SGS construction site.

I am a retired lady who worked into my 70s. I appreciate the peaceful enjoyment of my home.

.We endured terrible noise and earth shaking from the construction of the Encore building which is 150m away. This giant excavation will be a few metres away from our buidling and the noise dust and tremors will be unbearable..

The constant traffic & trucks queued up will be noisy outside my window.

My back window is overlooked and I will lose light and sunlight, warmth in winter.

Build it somewhere else on the large area of playing fields instead of right behind residences.

Name to be WITHHELD

[REDACTED]

25/33 Lawson
