**Date:** Monday, 21 February 2022 5:26:41 PM

---

To the Commissioners:

As an old man I won't be personally affected by this mine, and it's possible that you won't be either. But is it not the height of greed and irresponsibility for us to keep polluting the planet like this? This particular proposal involves massive emissions of methane, loss of groundwater and harm to both farmland and forest. Most of all it is an outrageous betrayal of the government's promises about greenhouse gas reduction targets by 2030 and 2050. We cannot slow down climate change by approving these huge catastrophic mines. Please stop this terrible project. Please.

David Lovejoy
