Please reconsider the senseless destruction of cultural heritage and the lands themselves for fossil fuel industry leaders Glencore. Move on and get a vision of a future without coal. The destruction you unleash will remain for decades. It is not right

I have read that Heritage NSW said in the meeting with the IPC, removing the building and mining the landscape 'diminishes' an "*opportunity for truth-telling and it diminishes the opportunity for us to come together as Aboriginal and non-Aboriginal people that live in this country*". Also that they say "*if we keep dismantling these cultural landscapes we won't have the opportunity to share ... stories*" that need to be shared. I support this sentiment.

Kind regards,
