Dear Commissioners,

The statements below is information I have been given when informed that Glencore want to expand into Ravensworth

Estate and turn it into a coalpit!!! The writing is on the wall for mining fossil fuels so to even consider the destruction of Ravensworth,

nevermind that there is a plan to move the homestead, is so unthinkable, so unnecessary, that it must not happen. Please, stop this

environmental vandalism once and for all time.

"Ravensworth Estate sits on one of the earliest sites of colonial settlement and frontier conflict in the Hunter and remarkably, its homestead and surrounds remain largely intact.

Heritage agencies say Ravensworth homestead and the surrounding area:

- has the strongest documentary evidence of any conflict site across the Hunter Valley, including the event known as the Ravensworth massacre.
- tells the story of shared Aboriginal and European heritage
- is rare and exceptionally intact.

Its rarity and importance has been compared to the World Heritage convict sites in Tasmania, and the significance of the massacre site has been compared to world war battlefields in Europe".

Yours sincerely

Julie Dickson
