

3 May 2022

Mr Shane Scott
Coal Assets Australia
Glencore
Ravensworth NSW 2330

By email: [REDACTED]

Dear Mr Scott,

**Glendell Continued Operations Project (SSD 9349) and
Mount Owen Continued Operations (SSD 5850) Modification**

I refer to the above Applications currently before the Independent Planning Commission (**Commission**) for determination.

Glencore and the Commission held a meeting on 10 March 2022 to discuss the Applications, and at that meeting a series of the Commission's questions were taken on notice by Glencore, as summarised in the Commission's letter dated 11 March 2022. Glencore provided its response to the questions taken on notice on 23 March 2022, including the modelled data from borehole testing that informed the Gas Domain Model.

Further to the provision of that data, the Commission requests the raw data from the boreholes, including the gas composition content within each borehole.

Please provide a written response by 5pm on **Friday, 13 May 2022**.

This letter and your written response will be made publicly available on the Commission's website.

If you require any clarification in relation to this request, please contact Ms Casey Joshua on 8289 6913 or casey.joshua@ipcn.nsw.gov.au.

Yours sincerely

A handwritten signature in black ink, appearing to read 'S. Barry', with a long horizontal stroke extending to the right.

Stephen Barry
Planning Director
