Hi Brad and Geoff,

Thank you for your time last week. We have attached a few documents in response to questions asked at the stakeholder meeting. These include;

- The SDRP commentary from the third SDRP meeting;
- The fly through as linked below

In response to one of the queries raised regarding over shadowing of the trees proposed — I just wanted to clarify that overshadowing from vegetation cannot be taken into account in a qualitative way, unless it appears like a solid fence (eg a hedge). As such the impact from these has not been modelled. I have attached the relevant case law for reference: The Benevolent Society v Waverley Council - NSW Caselaw.

Could you please confirm if there was any other information required, including landscape sections or any clarification regarding the eastern elevation.

Kind Regards
