

Buttai Gravel Pty Ltd v Independent Planning Commission (Class 1 Application) Land and Environment Court Proceedings Number 2023/252084

Martins Creek Quarry Project (SSD 6612)

Notice of Conciliation conference 21 March 2024

The Court has listed this appeal for a conciliation conference on 21 March 2024, commencing at 10am at the site of the SSD Application. The conciliation conference will be facilitated by a Commissioner of the Court and attended by representatives of the Applicant, the Commission, Dungog Shire Council and Maitland City Council.

There will be a public part of the conciliation conference where objectors may attend and have an opportunity to make oral submissions, either onsite at the Martins Creek quarry or at the conciliation venue.

The conciliation venue is the Glendarra 2 Conference Room at Tocal College 815 Tocal Road Paterson.

After the conclusion of any oral submissions, the parties will undertake confidential conciliation discussions facilitated by a Commissioner and participation in those discussions is limited to the parties and their respective representatives.

Making a submission at the conciliation conference

If you wish to make an oral submission at the conciliation conference, please send an expression of interest, including the following information:

- Your contact details (email, phone number, home address);
- Whether you represent any other person or group; and
- The topic (e.g. water, air quality) that you wish to address

Please send your expression of interest by email to ipcn@ipcn.nsw.gov.au with "Martins Creek Quarry – Conciliation Conference" in the subject heading by **16 January 2024**.

If you have already advised the Commission or the Crown Solicitor's Office that you wish to make oral submissions at the conciliation conference then you do not have to make a further request.

We will inform the Court of these expressions of interest. We will contact those who make an expression of interest after that date to confirm arrangements.

We note that the Court's policy on conciliation conferences (attached) limits the number of on-site oral submissions. Accordingly, the Court may not be able to accommodate all people who express an interest in making an oral submission. We will write to all persons who send an expression of interest in making an oral submission at the conciliation conference and confirm the arrangements.

Please note that all written submissions previously made will be filed with the Court.
