Hi,
I'd like to once again lodge objection to the Martins Creek Quarry expansion. The menial concessions Daracon have made to the original proposal are not sufficient. This quarry needs to remain at its current allowed limits for all the reasons that I have previously submitted.
I hope these we aren't just continually asked to make further comments over and over until Daracon just get the approval they want.
They have had the deadline to submit their proposal a few times now. This is starting to look like, they know the drill, what is required to get around this government department.
It is ludicrous.

Regards
Darryl Hetherington
