Dear IPC members

Having reviewed the new material in relation to MCQ Expansion Plans I do not believe these minor modifications will resolve any of the impacts or issues that I raised previously in my submission in November 2022. The expansion will still have an enormous unacceptable impact on the locality around the site and along the main haulage route for 25 years.

I am still strongly opposed to the quarry expansion and the horrendous impact it will have should the expansion be approved. Please do not destroy our beautiful rural village of Paterson.

Kind regards  
Janet
