

## Martins Creek Quarry (SSD-6612) Submissions on Additional Material

23 December 2022

The Commission Panel for the Martins Creek Quarry Project advises that public submissions have been re-opened for the Project on new material.

In accordance with the 'Submissions on additional material' section of the Commission's ['Public Submissions Guideline'](#), the Panel considers that it would be assisted by public submissions on the following new material provided to the Commission:

- Letter from the Department of Planning and Environment in response to the Commission's request for information, dated 19 December 2022 and received by the Commission on 19 December 2022; and
- Attachment A – additional information prepared on behalf of the applicant, received by the Commission on 19 December 2022.

The new material can be viewed on the Commission's website, [linked here](#), under the 'Additional Material' tab.

Submissions must specifically relate to the new material only. All relevant submissions received by the Commission will be published as soon as practicable after the deadline has passed.

**Submissions must be received via email to [submissions@ipcn.nsw.gov.au](mailto:submissions@ipcn.nsw.gov.au) between the release of this statement on Friday 23 December 2022 and 5pm AEST on Tuesday 31 January 2022. This deadline will be strictly enforced.**

The Panel will only consider submissions received directly from the person making the submission. Campaign emails, petitions or form letters will not be considered nor uploaded to the Commission's website.

The Commission has sought to provide the new material as soon as possible to the community and acknowledges that in this case the new material is being published directly before the Christmas holiday period. Accordingly, the Commission has allowed for an extended period of time for submissions, providing five weeks for the community to have its say on the new material.

**(END OF STATEMENT)**
