Comments regarding the McPhillamys Gold Project:

I feel the McPhillamys Gold Project will have a positive impact on the Blayney community. The flow on effect of increased job opportunities for the local workforce will result in increased revenue for local businesses increasing house values and ultimately more services in the Blayney community.

As a local business owner, I look forward to the benefits the mine will have on my business.

Comments regarding the McPhillamys Gold Project:

You only need to look at what Cadia has done for the region and the town of Orange. The money that has been injected back into the community through just wages alone this has provided better homes, schooling and lifestyle opportunities for its employees and families. The McPhillamys project will do the same thing for Blayney and its region.
