I am making this submission on behalf of:

Myself

A business/ company/ community group

Are you impacted by the Project? If yes, how?

No

Do you work for Regis Resources? No

Do you support the Project? YES

Please write the reasons for your support for the Project – why is it important to you, your family, your business or the Blayney Shire Community?

Blayney needs large employers. When we had the abattoirs the town thrived. After it closed the town went backwards, businesses shut, population stalled, services lost forever. If we had another industry come in & boost employment it would have a knock on effect for the town. I can only see positive results from this project

Signature: 

Date: 31.1.23 getting the go ahead.

Do you work for Regis Resources? No

Do you support the Project? Yes.

Please write the reasons for your support for the Project – why is it important to you, your family, your business or the Blayney Shire Community?

The obvious reason is the increase in employment in the local area. Mining offers so many varieties in the work space - from cleaning, admin, to mining professions.

The project would see local communities benefit, help to improve local services and infrastructure.

Are you impacted by the Project? If yes, how?

Local business owner impacted by the future growth of the Blayney District

Opportunity for my eldest daughter to relocate closer to home (currently a Mining Engineer in SA)

Do you work for Regis Resources? No

Do you support the Project? Yes

Please write the reasons for your support for the Project – why is it important to you, your family, your business or the Blayney Shire Community?

Having invested my life savings into a business venture (Storage Units) in Blayney , I have a vested interest in the futre growth & futher investment in this regional area.

Also being employed in the Mining Industry in the region , I also understand the favourable impact & support provided to Local Communities from Mining Companies.

With so many changes within the mining industry & minimal impact / footprint that mine sites now establish & maintain , this type of facility can do nothing but improve the local area's growth.

This mine would give my eldest daughter the oppportunity to relocate closer to home (currently employed in SA)

The mine development at McPhillamys will be a positive for BLAYNEY and its community. The development will improve infrastructure in Blayney and ensure employment for people in the community both directly and indirectly and promote business in BLAYNEY ensuring sustainability of the town into the future.
