

Philip Church- 222 Pounds Lane Fitzgeralds Mount, Kings Plains.

The last thing my family wants to do is sell the family home and farm and move from Kings Plains. I fear this will be inevitable if Regis is granted approval.

The impact this proposal has had on us has been immense. The worry, stress and all of the sleepless nights have taken a huge toll on our health. The frustration and the uncertainty of their future coupled with the lack of information and understanding shown by Regis has virtually ruined their health.

If the approval is granted and they find they cannot live with the increased noise and dust levels we will have to sell up and move.

As I understand there is no condition in this proposal to allow compensation from Regis in the event they exceed their limits. So I assume we would be looking at selling our property on the edge of a goldmine for whatever they could get.

Surely with all the government rules and regulations in Australia, this cannot be the outcome!
