Submission:

Dear Sir

I am writing this submission in support of the Bowdens Silver Project for reasons including the following.

This project has been in the making for many years at huge expense/investment and I would find it quite ridiculous to rule against at this stage given the procedural hoops that have been jumped through to date. If there is any significant issues that have not been addressed to date, then they should have been required.

Should this project be rejected at this stage my investment dollars will never be risked in the state of N.S.W again when jurisdictions elsewhere are safer for long term investment strategies

Kind regards
