Re: Postal Public Submission in relation to Bowdens Silver Project (SSD 5765)

Support (I am making a submission that supports the conditional approval of this proposed development)

Neutral (I am neutral about this proposed development and am providing comments for consideration)

Objection (I am making a submission that objects to this proposed development going ahead)

Submission:

Given the location of the proposed mine, the likely long term economic benefits and strong community support, it is hardly surprising that the DPE considers the benefits of the project outweigh its residual costs.

Since the company has also completed further technical and environmental assessments, including water management and supply, and the project will deliver significant investment and jobs to the local community over the long term, the Bowdens Silver Project would seem to be an important future contributor to the economy of the region, NSW and Australia. Thank you.

David Denison
