Throughout history there have been objections to some aspects of mining activity. If the positives outweigh any negatives, projects usually proceed. Silver Mines Limited is a highly respected environmentally conscious mining company. Their proposed mining activities for the Bowden Silver Project will offer great economic benefits to the Mid-Western Region of New South Wales including employment, opportunities for small businesses, mining support industries, and financial benefits for the state of New South Wales and indeed the whole country. I support this project wholeheartedly.

Yours faithfully
