Submission:

To Whom It May Concern,

I give my support to the Bowden Silver Project as I can see it has many benefits.

Besides providing employment during construction and ongoing operations directly, it will provide many flow on benefits to local business with supply, trades and services.

As Australia moves towards renewables, silver will be a valuable commodity with its use in solar panels as well as electric vehicles. The Bowden Project will be a significant asset to the State.

With an expected mine life of at least 16 years I see the project as a silver lining to the local community and the economy in general.
