Good afternoon

I am writing to you to offer support to the bowdens silver project.

I believe that silver has an essential role to play in green energy technology, and am aware that the global silver supply has been in deficit for the last 2 years. Silver mines limited can help significantly in this area if the bowdens mine is allowed to go ahead. There would also be great benefits to the local economy in terms of employment, and to the bottom line of the NSW state governments budget.

Yours sincerely

Mandy Croft
