**Submission:**

WE ARE IN SUPPORT OF THIS PROJECT to advance as it will become a global significant resource for silver. It will provide employment for the local area over at least the next 25 years and will also provide materials necessary for the continuing advancement in renewable resources.

Furthermore our present Government has decided to interfere in the free marketing of gas + coal which will impact the poorer section of the Australian public + stand to be condemned for their short sighted + socialist attitudes towards the security of our country.

This project ticks all the boxes + should not be delayed through bureaucratic nonsense by Government Agencies.
