Submission:

I would like to support this company being Silver  
mines in its Silver project at the bowdens silver project.  
As I believe silver is a critical mineral / resource  
for the now / future with many uses in electronics  
solar, electric vehicles, medical uses and other  
uses of which are being identified.

As far as the environment is concerned as a stakeholder  
concerned about renewables & its great benefits to the  
earth & economy. Also the way that Silver mines  
has consulted all stakeholders in the potential approval  
stage is very impressive & deserving of consideration  
of approval of the project.
