Submission:

I have read the Dept. of Planning & Environment Report regarding the BOWDENS SILVER PROJECT. I was impressed with the thorough detail and analysis. It seems clear the SILVER MINES LTD's proposal has paid great attention to environmental & heritage conservation, as well as the sensitivities of the local community.

Silver is a precious metal becoming more and more important for modern technology and electronics. It is exciting to consider the great economic benefit for our country into the future as this mining venture unfolds.

I very much support this initiative and the rigorous process towards its establishment and eventual operation.
