Subject: BowdensSilver Project

Mr Peter Duncan AM

I'm making a submission that supports the conditional approval of this proposed development. The change ahead in demand for silver on a world wide basis is massive. Forecasters are saying we need a 15% increase Y/Y now, going ahead with this mine is a win for Regional NSW, shareholders ,local employment and State Gov. As a former Bank Mgr in the Central West I know how vital it is to boost jobs in Regional areas. The Central West is supportive of mining with Newcrest Mining and Alkane Mining already mining very successfully around Orange and Dubbo areas.
