I Live on My Property at the Above Address I have 5.8 acres. I live a very quiet peaceful life here caring for my intellectually older brother who has been in My care for 32 years. With this mine going ahead I believe it will affect Mine my Brother and the whole community's Health Mentally & Physically. Apart from the noise Destruction of the Environment and the Surrounding area. We won't be able to grow our small amount of vegetables and have the lifestyle that we have here. our creek will no longer be viable, and the land will be polluted. My neighbor has sold out to the mine and this means that now my boundary is on the mine not acceptable for me. I've been a mother most of my adult life and have been a carer for my brother for so long. This home of mine is ~~my~~ all I have I don't have a super income and the loss of property value will be enormous for me. out of all the studies that have been done from the Professionals from the Lue Action Group & the independent groups all say it's not viable, concerning and the impact to the Environment and the people in the Surrounding area right through to Mudgee will be greatly affected.

Please we are begging you don't let this Disaster to happen
