Hi Nathan.

I am so sorry for the delay in getting back to you. We have been operational.

We have no further issues with the proposal as it appears not to significantly increase the risk at the site.

Thank you
Elle

Hi Elspeth

Hoping to have a brief chat to confirm that SES has no issues with what is proposed – if you could call me on [REDACTED] when you have a moment, that'd be appreciated.

Many thanks
Nathan

Nathan Stringer

The Department of Planning and Environment acknowledges that it stands on Aboriginal land.

We acknowledge the traditional custodians of the land and we show our respect for elders past, present and emerging through thoughtful and collaborative approaches to our work, seeking to demonstrate our ongoing commitment to providing places in which Aboriginal people are included socially, culturally and economically.

Thank you Nathan.

This information has been included on file. We have no further comments regarding the proposal.

Thank you again,
Elspeth

Good morning Elspeth

Thank you for providing SES comments to Willowtree Planning (attached) regarding the above SSD proposal. The Applicant has provided the Department with a response to the SES comments, also attached.

It is requested that the SES confirm whether or not the proposed strategies put forward by the Applicant are supported, whether any additional information is required, and/or whether any conditions of consent are required should the proposal be considered acceptable. If you could please provide any comments by Wednesday 21st September, that would be appreciated.

Many thanks for your assistance with this project. Please get in touch if you have any questions.

Best wishes

Nathan
