Hi Steve,

The Department will now not be meeting with Centennial until later this month and hence recommend that assessment of the three modifications currently with the Commission is suspended until further advice is received from the Department.

Happy to discuss.

Importance: High

Dear Jessie and Gabrielle,

On 2 February 2024, the Commission became aware that the applicant for the three Springvale and Western Coal Services Modifications currently before the Commission had put a request to the Department of Planning, Housing and Infrastructure. The nature of the request, as the Commission understands it, is for the applicant to be able to discharge waters for longer than the three to four months contemplated by the Department's recommended conditions.

Can you please:

1. Confirm the terms of the applicant's request to the Department.
2. Confirm whether or not the applicant's request constitutes:
 - a. an application to amend the Modification applications; or
 - b. a change to the Department's recommended conditions.
3. Whether the Department will agree to the request and if so whether the Department will undertake further assessment of the applications as a result.

Kind regards

Stephen Barry | Planning Director
