Subject: Objection to Thunderbolts Wind Farm on Kentucky Country
Date: Friday, 12 April 2024 4:43:52 PM

To who it may Concern.

Here are my reasons of Objection to 3 Bladed Wind Turbines/Farms.

Kentucky Region into these areas please Protect Protect Protect from :

- Infrastructure of a 3 Bladed Wind Turbine of a kind Unable.
- Infrastructure offering Man Made, Nb Man Made, NB, NB, NB, Man Made Infrasound, and it Is Man Made, Man Made, Man Made, and Not Nature Sound, Not.

- Disturbance to :

- a. Vital Upper Tributary Catchments of MacDonald Vital Upper Tributary Catchments of Namoi Vital Upper Tributary Catchments, and they are Vital Upper Tributary Catchments.

- b. MacDonald Catchments into Four Areas that are these. Kentucky area north to east. North to East. North to East.

- c. MacDonald Catchments into very very very Sacred Land Anaiwan. It is Sacred Anaiwan Land. There are Elders who are knowing Lines of Significance in this Region to Yarrowyck Mountain. See link. It is Sacred Land Anaiwan all the way to Balala Country.

<https://www.coffstrails.com/trail/bulagaranda-mt-yarrowyck/>

- Anaiwan Country is Sacred Land to Upper Catchments of Namoi near Mt Yarrowyck. Yes Mt Yarrowyck. These are known. Known. Known.

- Balala is Sacred Land to the Namoi Upper Tributary Catchments of Top of the Range of the East, yes, to West Upper Tributary Catchments, yes.

In the Idiotic ways government Harm and Cause Loss To:

Sacred Land

Sacred Land

Sacred Land not theirs Ever to be offering a Sound - Infrasound Man Made, Man Made, and known of it is.

The Area Balala Kentucky to Mt Yarrowyck is Sacred yes. Known about. How have Neoen been given permission in this area Sacred is a Question I say is.

Land Sacred is Land Sacred. The Reason it is Sacred is Understood by Particular Elders Only.

How has Neoen been offered Kentucky Country ?

How did Neoen access this Land in ways that are a Threat to Sound Nature in Kentucky in Balala to Mt Yarrowyck Region. It's a Region.

I Need a full investigation into these issues please.

1. New analysis shows China *ramped up* Coal power capacity last year despite a pledge to " strictly control " the dirtiest Fossil Fuel.

This is UK News as of this day 11th April 2024.

Is it a Issue ?

Yes it Is.

Who makes Wind Turbines for Australia ? Well well well. Who Is offering China Made Wind Turbines ? Australian Government. I Demand a Royal Commission into Renewables and Overhead Transmission Lines Immediately.

2. If 3 Bladed Wind Turbines access a Dry Continent, as a Dry Continent, as a Dry Continent, As A Dry Continent.

If 3 Bladed Wind Farms access Regions Fire Prone, Cease and Desist them Immediately.

Infrasound, Man Made, in the Granite Areas Kentucky Balala is a Issue. Granite is in the Area. Mountains of Granite on the Region Balala. Echo Effect is a Issue to the People living Simply as either Residents or and Farmers who Grow Economy, Economy, Economy.

Infrasound Man Made, Man Made, Man Made, Cease and Desist. Cease and Desist 3 Bladed Wind Turbines Immediately Immediately

Immediately. Or our government, Australian, State, are Complicit , yes, yes, yes, Complicit in Harm and Loss to :

- humans hear Infrasound Man Made. Some hear it. Some Feel it. It is Well Researched. Cease and Desist 3 Bladed Wind Turbines Immediately.

- Koala are Endangered, did you know. I feel our government does not know that. That is a Issue. Yes it is.

I am Outraged with World Governments who offer 3 Bladed Wind Farms worldwide and Know, and Know, and Know these Kill Wild Life, Wild Life.

Eagle is a Living Master upon Earth. How Dare they be Threatened. Threatened. How Dare they be Threatened. How Dare Australia people allow 3 Bladed Wind Turbines On Country Australia.

Little Eagle are So Rare they Must be Under Protection.

Bats will be drawn to the Tall and Very Tall Blades of Harm and Loss type.

Cease and Desist 3 Bladed Wind Turbines Immediately, Australian Government.

Why, Why, Why aren't Rooftops Our Infrastructure for Energy Production ? Why ?

I Demand a Royal Commission into Renewables and Overhead Transmission Lines.

I Demand 3 Bladed Wind Turbines Cease and Desist Immediately.

I Need Neoen out of Australia due to Harm and Loss to these regions, north QLD. Ravenshoe. Kaban. North QLD Rainforest regions into Wet Sclerophyll type forest now Completely Completely Completely Changed. Cease and Desist 3 Bladed Wind Turbines/Farms Now. They Cause Harm and Loss they do.

In many ways I have a Need for a Royal Commission into Harm and Loss to Original Native Species, and Original is Original Evolved Australian Native Species.

I am Completely Distressed at governments , all World Governments, who Cannot Stop this Nonsense being Renewables On Precious Country.

Rooftops are Available in Australia you see. Use Rooftops and Cease and Desist any further Harm and Loss to:

- Koala and their Habitat, under 88 Cumulative Impacts so far.
- Eagle, and Raptor Species. Rare. They take a Year to rear young. A Year. A Year. A Year. Chicks are Fed up to 5 times a day. Two chick's is 10 times a day. Adult is The Provider. Searching wide areas for Food. Known to be killed by Blades , 3 Bladed. Cease and Desist 3 Bladed Wind Turbines Immediately.
- humans. Hm. What about them, your Fellow Australians, who Live On Country in Kentucky Balala Region. Cease and Desist 3 Bladed Wind Turbines Immediately.
- Bats. I Love them. They Support Life. Eucalypts need them. Survivor Eucalypt. Survivor Eucalypt. How Dare we allow Infrastructure that Kills Wild Life.
- Anaiwan Sacred Country is Sacred.

Cease and Desist 3 Bladed Wind Farms Immediately. Bladeless Technology subsidise From Now.

Bladeless Technology is Readily Available to be on Every Rooftop in Australia. Rooftops are Infrastructure Available for Renewables. Cease and Desist Harm and Loss to Environment All On Country Environment Immediately. Use Rooftops for Energy Production. Use Rooftops for Energy Production. Many Local Jobs for many years to come. Less Harm and Loss to Wild Life Itself.

Lower Costs are Rooftops for Renewables. Lower the Cost Outright re Energy Production and Use Rooftops Only for Energy Production to Homes, Businesses and Small Industry. Use Coal for Major Industry. China is. Ours. Ours. Ours. Going Where ? Offshore ? To make What ? Wind Turbines ? Outrageous.

We need to very much Research Impacts of the Agenda Renewables as a Harm and Loss to method of Energy Production, to Nations Worldwide.

I Demand a Royal Commission into Renewables and Overhead Transmission Lines Immediately.

Coal is Precious. Yet sold in Australia. Sold. Sold. Sold. How come ? Why ? Bit of a Joke isn't it. A Bad Joke, yes. How Dare our government, Australian, Sell Coal in Increasing amounts, to Asia India etcetera, whilst supposedly wanting Net Zero emissions. What a Farce. What a Farce. Shame on our government.

Cease and Desist Renewables Outright.

Use Coal but Minimally, and in Australia. We are a tiny Nation. We are able to use Coal for Energy Production. Yet Australian Government Sell it to China ? What's going on ?

I Demand a Royal Commission into Renewables. Made in China At A Cost to 88 Issues in our World, Ignored, and Ignored, and Ignored in Governments, World. Hey Governments, World, Awaken to the Serious Issues Affecting Life Itself, yes, Life Itself. Priority Order Issues are :

- Deforestation. What Are we Doing to a Planet. The Only One With Life, Losing Forests For No Reason.
- Catchments under Threat from Inappropriate Land Management.
- Aquifers under Threat Worldwide, Worldwide, Worldwide. Care for Catchments. Care for Catchments. Care for Catchments.
- Mining in Excess. In Excess. Impacts Catchments. Impacts Catchments. Catchments. Catchments. Dry Droughts Increase in areas near Mining areas, Correct. Reason. Lower Water Tables. Quite Obvious, Really.
- Impacts to Catchments from 88 sources, so far, NB, so far, Including Renewables. Australia Is The Driest Continent on Earth yet Managed Inappropriately, and Has been since 1844, when Gold Diggers Harmed Catchments Eon Evolved.
- Why are Renewables taking Water from Catchments in Farmland and in Wilderness?
- Why Why Why are Renewables in the Bush ? Why ? Use Rooftops.

Less Cost Outright. Outright. Meaning, fewer Impacts all round to Environment All On Country Environment. Use Rooftops. Use Rooftops. Use Rooftops.....

- Use Rooftops.

- Use Rooftops.

- Use Rooftops.

- Catchments in a Dry Continent, Excess Extracted. Excess Extracted. Renewables are Another Threat to Catchments. Put Renewables On Rooftops Only. Only. Only.

- Vital Upper Tributary Catchments under Threat from 98 Cumulative Impacts Increasing, not Decreasing.

I Demand Care for Country and All On Country Immediately.

I Demand Care to Country Dry Continent Australia please. Fires Harm Original Native Species our Endangered Species now Depend on. Now Depend On.

I Demand Cessation of 3 Bladed Wind Turbines From This Moment.

Cease and Desist 3 Bladed Wind Farms Immediately.

Studies in China pre post implementation of Wind farms shows Drying of Soils. Drying of Soils. Drying of Soils. How Dare our government Threaten Farmland, Generational Farmers, Residents, Wild Life, the Land, Habitats, Koala, and Platypus. Dry Soil Impacts Catchments. I research Human Impacts to Vital Upper Tributary Catchments of the Top of the Range of the Drainage Divide of the Great Divide of the Northern Tablelands of the Eastern Seaboard of NSW, and observe Issues daily.

Please Cease and Desist 3 Bladed Wind Turbines Immediately Worldwide Worldwide. They are a Threat you see. They are. Are. Cease and Desist 3 Bladed Wind Turbines Immediately.

Use Rooftops for Home, Business , Small Industry Energy Production. Coal for Industry. Into Fusion Energy Production Without Radioactive elements. Without Radioactive elements. Fusion Energy Production is

theFuture. Without Radioactive elements. Fusion Energy Production Is the Future, Without Radioactive elements.

The Future to View is Next 8 Generations. Next 8 Generations. Leave our Farmlands to Next 8 Generations. Next 8 Generations will Need it. Need it.

Leave Country Australia Free of 3 Bladed Wind Turbines/Farms From Now. Fires we can Reduce by Appropriate First Nation Land Management, Correct.

Our government is quite Ignorant about My Dry Continent I Research Every Day from the Drainage Divide Northern Tablelands NSW.

In the Earth Itself, are the Aquifers Drained and Under Threat. Under Threat. Under Threat. If Excess Extraction of Aquifers increases on the Top of the Range, Fire Risk Increases. Farmers must have access to Catchment Flow or Water Captured in Large Dams. Threat of Fire threatens Farmland. Fires are issues seen in this area Kentucky. Lessen the Risk please of Fires in this Precious Vital Upper Tributary Catchments Region, Kentucky Balala Namoi Vital Upper Tributary Catchments.

How will Firefighters access Fires in the Vicinity of 3 Bladed Too Tall , Too Tall, Wind Turbines/Farms. Locals - one the Fire Captain of Kentucky Region - have given evidence about these issues. So far have been Ignored. It's a Disgraceful Government I say, threatening Country, Farmland, Habitats, Wild Life, Endangered Species, Koala into Platypus. In 2019 our area NSW was in a Historic Drought - the Worst Ever in History. The Worst Ever in History. The Worst Ever in History. Ignored. Ignored. Ignored. Wake Up, government. Wake Up. Awaken. Awaken. Australia is a Dry Continent. Australia is a Dry Continent. Australia is a Dry Continent.

Do not Impact this area Kentucky please with a Wind Farm. Why aren't Rooftops being used Please ? Why ? Why ? Why ? Why ? Use Rooftops for Home Energy, Small Business Energy, Large Business Energy, Small Industrial Energy. Use Rooftops. Use Rooftops. Use Rooftops. Leave the Land be. Next 8 Generations will be Needing it. Will be. Will be.

God. Help us Lessen our Impacts to Planet Earth please.

Please God.

Assist us God, please. Awaken us God, please.

Awaken us please God, please. We have Others we are Not considering, who are leaving the Planet for No reason. Congo is Under Threat. That means Gorilla is. My God. Help Humanity Awaken please. Please please. Please.

Please.

Cobalt is from where please ? Cease and Desist its mining. Immediately. God, Stop us, our Humanity, Please, please, Stop us, Destroying Life, for No reason. No reason.

I Demand a Royal Commission into Renewables and Overhead Transmission Lines Immediately.

Signed

A Distressed Female who has offered a 10 minute presentation at Kentucky Hall to IPCN Commissioners.

View the Map offered. It is the Region of Anaiwan Country. Upper Tributary Catchments of Namoi Anaiwan Land. Sacred it is. Sacred it is. Leave it as it is Forever.
