Submission No: 164639

Organisation: <i>Burrendong SOS</i>	Key issues: <i>Biodiversity, Visual impacts, Traffic and transport, Noise and vibration, Agricultural impacts and land use, Social and economic, Physiological - infrasound noise / electromagnetic interference / shadow flicker / blade glint</i>
Location: <i>New South Wales 2850</i>	
Submitter Type: <i>I am a member of the community with a view about the proposed development</i>	
Attachment:	

Submission date: 18/3/2024 9:21:25 AM

Burrendong SOS opposes this proposed development given its detrimental cumulative environmental, social and economic impacts on the immediate local community, NSW and Australia. This proposal is not "clean" and is not "green".

This proposal only benefits multinational corporations at the expense of Australian interests.

The only viable solution right now is Nuclear which is Co2 free & take up a very small land footprint comparable to the relentless sprawl of renewables & associated bushland clearing & covering of agricultural land.

This proposal is not for the greater good.
