Submission No: 163830

Organisation:	Key issues: <i>Energy Transition, Traffic and transport</i>
Location: <i>New South Wales 2354</i>	
Submitter Type: <i>I am a member of the community with a view about the proposed development</i>	
Attachment:	

Submission date: 3/13/2024 5:00:18 PM

*We will be able to see turbines from where and I am not worried about that at all. In fact I think it will be lovely to see. Much better than a coal mine in the vicinity! I have spoken with many people in the community and most of them are in favour or unconcerned. There's a very vocal minority that is opposed and sharing quite disturbing and untrue information in the community. This has been my greatest concern in the process. While I agree with the proposed wind farm I am upset that both the Tamworth and Uralla councils have managed to hijack the community funds. These should be made available through an independent distribution process, absolutely NOT through councils. Very few people in the Kentucky community trust the council or councillors to do the right thing by our us based on past experience. They (the councils) certainly did not ask us what we wanted before they negotiated to have access to our community funds.*
