Submission date: 3/25/2024 4:11:31 PM

I have lived in Kentucky for over 50 years and I think this is one of the best developments I have seen over the years for our community. I am very happy with the consultation process and believe that everyone who wished to have their views recorded were consulted.

The only concern I have is with the two councils involved deciding that they should distribute our community benefit fund. I would be happy with the original Neoen proposal for the distribution of funds. They have listened to our community and proposed a community benefit fund based on our feedback. The council has not done this but decided that they should control the funds. This is not what we want as a community. Please make sure they don't get access to our community benefits, or they will not be spent on the local, most directly affected community.
