Re Proposed Thunderbolt Wind Farm SSD-18087896

Dear Commissioners,

I oppose this windfarm proposal on following grounds :

1) Ecological & Biodiversity aspects. I am 15 years old. I am very concerned how the proposed very large windfarm towers will affect wildlife in this area. I am concerned about the removal of habitat, dangers to wildlife during construction and danger during operation. I am specifically worried about Koalas (endangered species) , Turquoise Parrot , Swift Parrot, Little lorikeet, Barking Owl, Scarlet Robin Bell's Turtle (endangered) and Bogong moths (endangered) living in this area or migrating through it.

2) Lack of End of life decommissioning funding or plan for removal of windfarm turbines, towers and foundations when become obsolete. We, the younger generations are stuck with these structures forever, as there is no plan or budget to remove them

I request :

Further investigation of impact on wildlife.

Plans to include an end of life decommissioning plan for removal of turbines.

I support Solar Energy panels on every building in Australia before damaging projects like this are put forward .

Your Sincerely

Thalia Edge
