

A C	OBJECT	Submission No: 169565
Organisation:	Key issues: Hazards and risk, Land use, Water, Air quality, Noise, Visual, Transport, Socioeconomic	
Location: New South Wales 2365		
Submitter: I am a member of the local community who would be particularly and directly affected by the proposed development Type:		
Attachment:		

Submission date: 4/19/2024 4:55:04 PM

Date: 04/04/2024 Case: Dubbo Firming Power Station (SSD-28088034). Cease and Desist Now.

Now.

What Are you Doing in Our FOOD BOWL, Squadron Energy ? Get out of there because you need to Squadron Energy. Why ? It's Our Food Bowl. Australia's Food Bowl. You must Not Risk it, Australia's Food Bowl. Australia's Food Bowl. Do Not risk it. Do not. Next 8 Generations, aka 500 years from Now, require areas for Food Production you see. Under Threat from the Agenda Renewables I Vehemently Protest.

I Protest all forms of Renewable Energy. Put All infrastructure for Electricity ON ROOFTOPS. On Rooftops. On Rooftops. Leave Our Murray Darling Basin Food Bowl for Food Production, Food Production, Food Production. Yes. Yes. Yes.

NSW Government IPC - CONFLICT OF INTEREST CASE REGISTER

Mr Mills has disclosed that his self-managed superannuation fund holds shares in a company that has an owner in common with the corporate parent of the applicant for this matter. To the best of Mr Mills's knowledge and that of the Commission, the outcome of the present matter has no reasonable likelihood (and Mr Mills has no expectation) of financial loss or gain to Mr Mills or the company in which Mr Mills's fund owns shares. On that basis, Mr Mills in his capacity as Chair of the Commission has decided that no actual, perceived or potential conflict of interest arises that prevents him from forming part of the present Panel.

Mr Andrew Mills ..... Proceed with appointment ???

Huh ? Hey. What's going on ?

I have Concerns about the proposed Dubbo Firming Power Station.

"The wellbeing of the community is a core component of our work. Our approach to engaging with the local community is both genuine and lasting. We own our firming projects from development right through to operations. This gives us unrivalled experience through the entire project life and provides us with a deep-founded respect for people, communities and the environment." In other words, Squadron Energy are in Complete Control of All components of this Hideous project. They Will Benefit Won't they ? Oh Yes. Against Community Opposition. Against it. Against it.

Dubbo Firming Power Station is a proposed firming power station, capable of using hydrogen, biofuels and hydrogen gas blends. The project consists of a dual fuel 64MW power plant and an up to 20MW hydrogen electrolysis plant.

Cease and Desist this Project Immediately Immediately Immediately Immediately Immediately. Harm and Loss it will be to anyone near or away from this site, a site of Harm and Loss to the Land.

*"The designation of a REZs is intended to result in the development of additional capacity for renewable electricity generation, producing low-cost power for NSW homeowners and business, driving down carbon emissions within the electricity generation sector, and importantly, driving up job growth and employment opportunities through enabling significant investment into the regions." This is Crap. Crap. I know what's going on on Planet Earth. And it isn't this at all. C is a part of Air. Get it ?*

*Squadron Energy claim " We are committed to launching 14GW of projects by 2030, powering the equivalent of six million homes."*

*"Our impact to date"*

*CORRECT. Impacts to date.*

*Homes powered - 7 million. Prove it.*

*Tonnes of emissions avoided - 2100*

*For Gods Sake. This is Rubbish. Continue claiming Rubbish Squadron Energy. Get Squadron Energy under investigation. There is No way this can be proved. No Way. No way.*

*Direct jobs created*

*\$350million. What's that mean ?*

*"Our values drive*

*everything that we do". BS. Yes I said that. They Don't Respect Country or Anything On Country, Correct. Correct.*

*"Humility*

*Courage and Determination*

*Empowerment*

*Family*

*Frugality*

*Integrity"*

*The people in this Company have No Respect at all for anyone or anything.*

*"Our vision*

*Squadron Energy is on a mission to transform Australia's energy landscape.*

*We aim to improve the environment for current and future generations by leading Australia's transition to renewable energy."*

*This is TOTALLY Hideous. These people will Destroy our Food Bowl. Yes. Yes. Catchments you see.*

*Interconnected.*

*Interconnected.*

*I vehemently oppose this project this project.*

*Cost of firming ??? What will it be ??? You don't know do you ? Do you ? Cease and Desist this Project Immediately Immediately Immediately Immediately.*

**New South Wales Government**  
Independent Planning Commission

*Gas is a Horrific Impact to Catchments in Our FOOD BOWL, NB, Food Bowl. Australia's Food Bowl.*

*And the Threat of Hydrogen in This Vital Murray Darling Basin is REAL. REAL. I Suggest this Project Cease Now.*

---
