*I support the proposed solar farm as it will provide renewable energy to many homes in the area.*

*As this solar farm will produce clean and renewable energy, it will not be harmful to the surrounding farms/areas.*

*In regards to the production of the solar farm, it will create jobs during the construction process as well as a few ongoing jobs in maintenance.*

*In conclusion, the project is well situated and a good use of the land that may not be otherwise used to its full potential with the added bonus of reducing greenhouse gas emissions.*
