Location: <i>New South Wales 2446</i>		
Submitter Type: <i>an individual making a submission on my own behalf</i>		
Attachment:		

Submission date: 8/25/2024 2:39:04 PM

There has been significant development of the surrounding area since the last environmental impact study rendering it irrelevant and out of date (even though it was a poorly informed and considered set of studies and reports initially).

This site for a mine is not remote it is too close to housing, M1 and other businesses.

There has been no consideration of the last meeting held, no reports or outcomes which is very concerning about whether due process being followed.
