Casella Waste Systems

sustainablemit Up close with recycling—in part from MIT—[@casellawaste](#)'s Materials Recovery Facility. The tour was part of an orientation for MITOS's new Sustainability Project Manager Dawn Quirk whose role is focused on designing out waste from MIT. Explore the Institute's current sustainable waste management practices at the link in the bio.

I ask you to imagine what happens when 7m high roller doors open 50 times a day with wind 80km to 100km blowing directly into this.
