*To the NSW Government and the Wingercarricie Council,*

*There is enormous opposition to the Plastefine development in our community. How is it possible it was approved we all ask. Destination NSW promotes the Southern Highlands as a must see destination , do you suggest a drive past Plasrefine would be a highlight? Although there are many small towns we are a close knit community that prides ourself on nature preservation and the environment. This development would be a disaster on so many levels and would make me consider why our family live in the Highlands.*

*I really hope this does not go ahead and if it does all I can think is what a \*\*\*\* Council and Town Planning council we have.*

*Regards,*

*Collette*
