*I feel as a resident of the southern highlands, that having this facility would have a detrimental impact on our community. Firstly, on our environment with numerous toxins chemicals and pollutants emitted into the air, soil and waterways. Secondly, the highlands is known for its vast amount of beautiful country side and this eyesore will tarnish our beautiful landscape and open up the pathway for future ghastly builds of large factories. Then we just become another overpopulated, polluted concreted city when does it stop?*
