Moss Vale is a thriving community of families and growing rapidly with many new homes being built. This is a beautiful residential area which is already struggling with growth beyond infrastructure - our road system is already making travel in and out of the area difficult. This plant is an eye sore, will affect roads and travel, will pollute our beautiful family environment. There is so much other non residential land between here at Canberra on the main highway which can be utilised for this development. Don't ruin a lovely village with a commercial waste plant.
