Location: New South Wales 2576	
Attachment: N/A	

Submission date: 10/24/2024 5:25:33 PM

This is the wrong site for this development. The environmental concerns with the water catchment area are paramount and the off gas from the factory could impact house and schools in the area. There are 1000 plus children at Oxley college, my concern for that school and neighbouring schools is the plastic particles and gassed that will be released. The traffic is also a massive concern with moss vale already at a standstill at certain times. please do not approve this plan.
