*I object to having a plastic recycling factory on this site for environmental, health, devaluing of property prices of friends who live in close proximity to this proposed site.*

*I have always enjoyed visiting friends in the southern Highlands and have also considered it to be a retirement option but this will NOT be considered if those plastic recycling business goes ahead. Stop this urgently to avoid further environmental and health issues as well as social impact and aesthetic displeasure to the landscape. Traffic issues will be ongoing, water pollution is of significant concern and the proposed facility will get preference over residents for town water.*
