The proposed large scale industrial facility is not in keeping with the rural setting of our district not only from an aesthetic perspective that we value highly but from the impact on food produced from this area with increased pollution.

We are a collection of small townships with limited roads of access and of questionable standard at best, to handle increased and heavy traffic.

Our newly elected local council was voted in on preserving our valuable environment and heritage so it is a big issue here in the Wingecarribee shire.

Please reconsider this application in the negative.
