*This project is totally inappropriate for the area and does not take into account the traffic impact of large trucks utilising what can only be described as inappropriate roadways.*

*Who ever is on the panel should get out of their Sydney/Parramatta offices and go and see for themselves the surroundings including residents in nearby areas.*

*If there needs to build this facility, have it near the Boral cement works where rail and truck transport from the Hume Highway will reduce residential fear.*

*I understand the NIMBYism fear and while we need a recycling facility, the panel needs to listen to the community concerns.*

*For what it's worth, thanks*

*Anthony Parrelli*
