*In my experience the NSW IPC is an unreliable body to review any project. They accept information provided by proponents and the NSW Planning Department without fact checking or ensuring impacts on the environment or communities are considered. They are far from independent and each Commissioner should be required to provide a statement as to their impartiality if they are to be taken seriously.*

*If 50 people have objected to this development then the NSW Government can be certain this development is not suitable in this location.*

*Please ensure that the entire development is considered as it should be.*
