I am utterly against this proposed development. I moved to the highlands with two young children to start life again after my husband died from lymphoma in 2019. I moved here because i knew it would be a safe place to bring up my children, free of harmful chemicals which potentially killed my husband.

This will be catastrophic to the area if it goes ahead and I'm sure it will be the cause of many future cancers among the population in years to come. My children don't deserve this for their future. It will be utterly devastating to the community to hear that this has been approved!
