*Moss Vale cannot handle traffic at the moment, let alone with another 400 vehicles per day.*

*I live within a kilometre of the site and I do not want myself or my children to be exposed to toxic chemicals in the air. Research studies show local populations living close to these facilities suffer from serious health conditions, respiratory diseases, skin rashes and eye disorders, not to mention the potential cancers caused by plastic resin compounds.*

*Housing prices will be affected. I have put my hard working money into my house and it isn't fair that this plasrefine will devalue my house.*

*I have a family member with respiratory issues, who lives in the highlands due to the lack of pollution. He will have to relocate to protect his lungs.*
