*Seeing social impact is something you are considering with this application I want to additionally clarify to my objection of this plant and the potential exodus of residence in the region once this is built.*

*We are in the process of selling our home and had intended to purchase in Moss Vale this year. Our kids attend MVH and Chev and we have been excited to lay down roots in Moss Vale for the long term.*

*Sadly - devastatingly - we will not be purchasing in Moss Vale or Bowral unless this plant is squashed.*

*We will leave once the plant is operational.*

*We can't risk purchasing a home that will devalue and loose money and we will not risk our health or our children's health by staying in the area once it's been built. Not even in Bowral.*

*It devestates me to admit this. I adore our southern highlands. But this is a tragic fact and a direct impact of this project.*

*And i know we are not alone in this decision.*
