Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2576</i>	
Attachment: N/A	

Submission date: 10/30/2024 6:13:08 PM

*I strongly oppose the location this development.*

*The proposed location, size, and scale of this plant are utterly unsuitable. While plastic recycling is crucial, this proposal blatantly disregards the character of the area and fails to consider the surrounding environment, waterways, traffic, community health, and future development plans.*

*The recycling technologies proposed are notorious for causing environmental and health issues. Why would the Department of Planning gamble with our community's well-being when a safer, alternative site could be chosen? This proposal poses a direct threat to the health of our families, contaminating our air and water, and increasing traffic-related accidents and pollution. Hardly a sustainable outcome that is being touted as a reason for approval. It's clear that moving forward with this proposal would be disastrous for everyone involved.*

*Approving this plant would lead to community health issues, economic decline, poorer housing outcomes, and hinder the growth of more appropriate industries in the district.*

*This plant, under its current proposal, must be relocated to a more suitable location.*
