TO WHOM IT MAY CONCERN

I am 79 and have spent 10 years sailing from UK/Europe to Fiji, researching ocean ocean plastic all the way.

I have supported awareness films to recycle and have also invested in industries which use waste plastic eg cement, so am keen to see plastic processing anywhere and soon.

However this Plasrefine is in the WRONG PLACE as it is affecting too many people and significantly affecting the environment.

Move the project elsewhere so that the environmentally conscious people can support it.
