As a local resident of Moss Vale I strongly object to the development of a plastic refinery warehouse. By building this establishment so close to residents and town it will negatively impact the beauty of our town, as well as the integrity of the southern highlands. There is many different areas within the Wingecarribee that this proposed development could relocate to, areas that do not directly impact suburbia and residents who are already at capacity on the roads. The impact this could have on our waterways in itself should be reason to not proceed. I strongly urge you to consider the objections by the community as we are the ones who choose to live here, not the owners of the plasrefine business.
