*I do not agree with this proposal as it has been scientifically proven it will impact negatively on our environment. Why on earth would our country allow this kind of ridiculousness happen here. Yes we must get rid of plastic but this is not the way. Creating more environmental impact to reduce plastic is so backwards it's not funny. Only the [REDACTED] would agree to this proposal!!*

*How about we ban billion dollar companies from using plastic instead of causing small communities this kind of negativity impact. It seems to always be the little folks that get shafted in the long run.*
