As a long term resident of Moss Vale and the Southern Highlands I am appalled at the lack of consultation with the community in regards to the site suitability. My husband has been in business in Moss Vale for 25 years and we have been able to monitor the changes in the traffic's volume on our site at the roundabout over that time , that alone is a good reason for not entertaining this proposal. As a landscape designer I know that this proposal is in direct opposition to what is proposed for our area.

As residents, parents and grandparents we cannot possibly accept the health risks associated with the plastics refinery here ie; water quality, pollution and fire.

This must be rejected and logic must prevail.
